# How to make a Sea Pen:

To make the body:
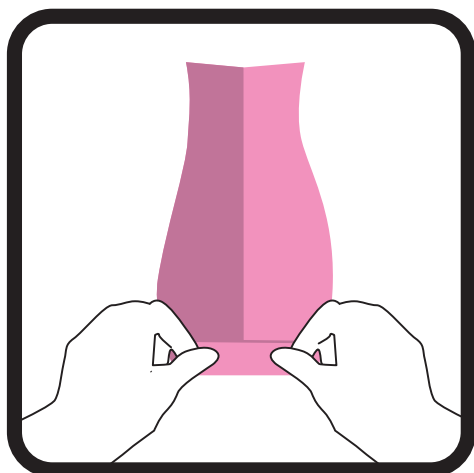

Trace around a template.

Cut out the shape.
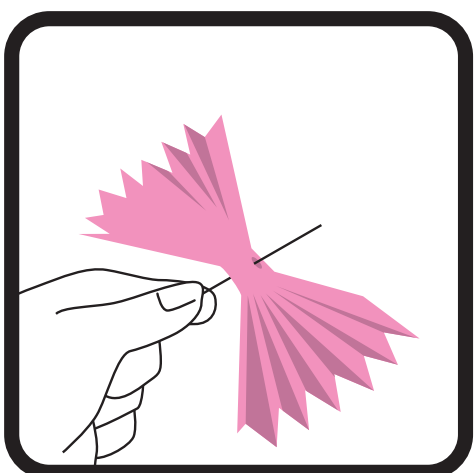

Fold down the middle and open again.

TOP

BOTTOM

Using the middle line to keep your folds straight…
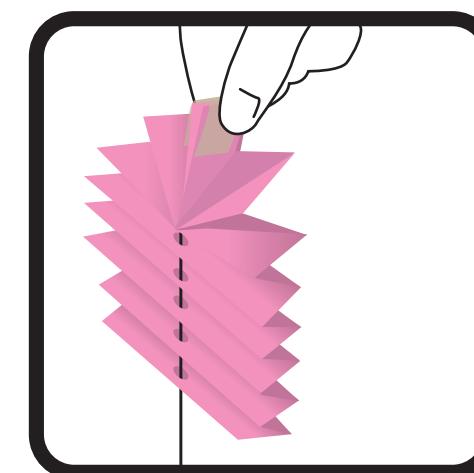

…fold into a concertina.

Use the hole punch to punch a hole in the centre.
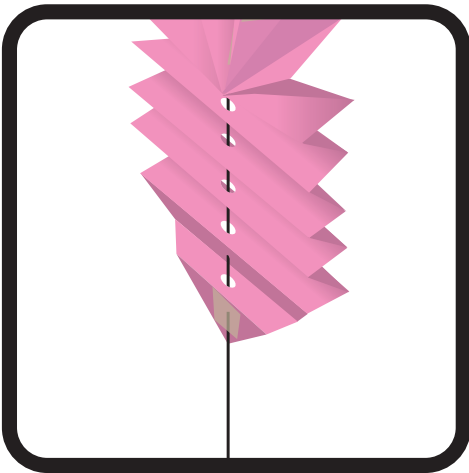

Thread the wire through the holes.

Bend the the wire and tape it to the fold at the square end.

Pull both edges of the top fold toward each other and tape closed.

How to make a Sea Pen (continued):

Expand the concertina and tape the bottom to the wire.
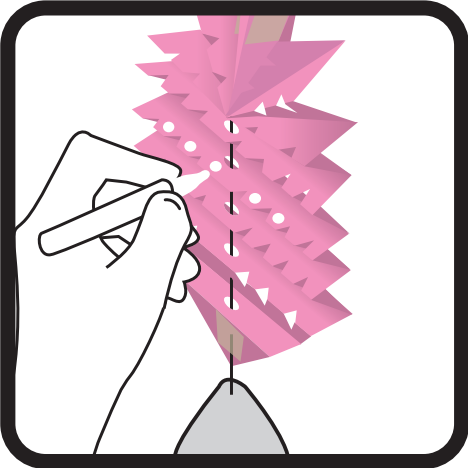

Cut the wire to make it shorter.

Poke the wire into the top of a plasticine pyramid.

**To create polyps on your Sea Pen, try one of these:**

Cut triangles out of the folds.

Draw polyps on with a pen.

Stick on stickers.

DONE!
